Hi, just a reminder that you're receiving this email because you have expressed an interest in The Center for Campus Fire Safety. Don't forget to add ctabor@campusfiresafety.org to your address book so we'll be sure to land in your inbox!

You may unsubscribe if you no longer wish to receive our emails.

We'll be announcing The President's Reception and Keynote Speaker in June, after the NFPA Conference! Sign up on our website for more info!

Looking for Speakers

We're looking for speakers in Chapel Hill. Please sign up if you want to speak. We'll get back to you in April! Please don't delay - speaker positions are filling up!

[ I want to speak]
FROM THE PRESIDENT ... MICHAEL J. SWAIN

UPDATES

I hope this newsletter finds all of you well. Graduation Ceremonies are in full swing. Many students have headed home or off to summer jobs and internships. Best of luck to all the graduates.

I had the honor of representing the Center at the Annual CFSI 29th Annual Fire and Emergency Services Symposium. Many old friends and professionals dedicated to fire safety were there. In addition to myself, Vice President Janet Maupin, and several directors also represented the Center.

AMY DALEY, FM GLOBAL APPOINTED TO ADVISORY COMMITTEE FOR THE CENTER.

Please join us in welcoming Amy to the team!

Amy Daley is Staff Vice President, Education, Healthcare & Affinity Groups Global Practice Leader at FM Global and is located in the company's corporate offices in Johnston, Rhode Island. Daley provides leadership to enable FM Global's worldwide growth and client retention in the education, healthcare and other affinity industries. With more than two decades of insurance industry experience, Daley previously served as an account manager in FM Global's Boston operations. Prior to joining the mutual insurer in 2010, she held positions as a property and casualty reinsurance underwriter, broker and commercial underwriter, as well as a loss control specialist. She is an undergraduate of Grand Valley State University, Allendale, Michigan and received her MBA from the University of Hartford, Hartford, Connecticut. Amy also has an Associate in Risk Management designation from the Insurance Institute of America, as well as an insurance producer Property & Casualty license. Amy is activity involved in URMIA, RIMS, ASHE, NACUBO and The Center for Campus Fire Safety.

OFF-CAMPUS, by Tim Knisely

The Hookah Lounge

An early morning fire department response for a carbon monoxide alarm took some investigating, and eventually found an unusual source. The building was a mixed-use occupancy with apartments on the upper floors, and a strip of restaurants, businesses and mercantile establishments on the bottom floor. The off-campus apartment had a battery-powered alarm and has electric heat. The requirements for the carbon monoxide alarm is due to proximity to the commercial tenants on the ground floor that use fuel-fired appliances for cooking.
For those of you who are unfamiliar, energy storage systems (ESS) are devices that can store energy for use as electrical energy at a later time. They are used in residential, commercial and utility applications listed below. These storage systems are important because they provide resiliency and reliability to our aging electrical grid system. The most popular form of ESS are batteries and in particular rechargeable lithium ion batteries. Other types of ESS include the following:

804.1 Interior trim. Material, other than foam plastic, used as interior trim in new and existing buildings shall have minimum Class C flame spread and smoke-developed indices, when tested in accordance with ASTM E 84 or UL 723, as described in Section 803.1.1. Combustible trim, excluding handrails and guardrails, shall not exceed 10 percent of the specific wall or ceiling areas to which it is attached.
CAREER CONNECTIONS

Sorry, nothing new to advertise today, but check the [home page](#) of our website for Career Opportunities that might come up before the next edition of our newsletter!

Don't forget ... Send job postings to: [SupportTeam@campusfiresafety.org](mailto:SupportTeam@campusfiresafety.org).
*(Posted at no cost to our members.)*

WRITERS & WEBINARS

We're ALWAYS Looking for Writers and Webinar Presenters ...

**Webinars**: If you are interested in presenting at one of our webinars, simply click [here](#), provide brief information and we'll call you. We provide the online structure, promotion and more ... all you have to do is present!

**Newsletter Articles**: We're always looking for articles for our newsletter. In fact, if you are interested in your own monthly column, simply let us know. Send your intent and/or articles to: [SupportTeam@campusfiresafety.org](mailto:SupportTeam@campusfiresafety.org)

STUDENTS - STUDENTS - STUDENTS

Students can now become members ... Please let your students know!!!

Full time students enrolled at least half-time in an accredited
TYCO - A community of Self Maintainers (Free to CCFS Members)

You've got the people, the equipment, and the ability to perform routine fire and life-safety system inspections and maintenance internally. All you need is a resource for information. An opportunity to connect with others, share best practices and more. That's why we created the Self-Maintainer Community.

JENSEN HUGHES ACADEMY provides CCFS Members a 25% discount on all online training

JENSEN HUGHES Academy provides online fire and electrical safety training to learners across the United States and throughout the world, distributed through our partnerships with the nation's premier fire protection organizations, eCommerce and direct sales to corporations and government agencies.

We'll announce registration and details in June!
CHUBB TRAINING
Chubb Offers 30% off to Members of The Center or 50% if you are also a Building/Fire Code official

(ICC CEU's )
Fire Smart Campus Training Opportunities ... The Center instructor(s) will come to your campus or town. Price varies depending upon location ...

CROWD MANAGER
New - NEXT GENERATION - Crowd Manager Training ... 2 hour online course @ $19.95. Presented by ICC, NAFSM & CCFS

PREVENT ZONE
Training for Students!
The Center for Campus Fire Safety and AliveTek, Inc. have partnered to launch a new online Campus Fire Safety course for college students at http://prevent.zone. "Be Fire Smart! College Student Edition" is a 30-minute interactive course that includes engaging scenarios, interactive challenges and real-life stories. Students learn what to do in a fire emergency and how to prevent fires in both on- and off-campus housing.

CENTER SOCIALS
Connect with us ... Join our social & discussions fire and life safety networks.

FOR FIRE SAFETY PROFESSIONALS
FOR STUDENTS & PARENTS
Campus Fire Safety for Students is a joint outreach effort between The Center’s Student Committee and NFPA.
