Dear Cathy,

I just want to thank you, Paul Martin and the Center's Board for the great work you are doing for the Campus Fire Safety community. Your dedication to disseminating up-to-date, correct and timely information on a series of important fire safety subjects is unequalled.

Your organization has made communicating to the campus fire community seamless and efficient and both as an NFPA technical committee member and in my position at Hughes Associates I thank you all for your hard work.

Sincerely,

Wayne D. Moore, P.E.
