

What you had to say!

The CCFS Professional Development, Education and Events Committee recently conducted a survey to help set a direction for future CCFS Events and to determine what our attendees, speakers and technology exhibitors want to see in the way of future informational and networking events. Your responses were very helpful, and we want to thank the hundreds of people that responded. Following are some of the highlights:

- 80% of the responses were from attendees while 20% were from Technology Exhibitors or Speakers.
- With respect to other campus fire safety expos, approx. 77.5% only know or attend the CCFS Fire Forum.
- With respect to the time of year you wanted to attend this expo: the winner was Oct–Dec, with the runner up as Jan–March.
- With respect to location, the winner was the MidWest/Central USA, with the next runner up being the Northeast, and the third choice, the West Coast.
- With respect to the length of our Forum, 92% feel it should run between 2 -3 days.
- 84.3% of all attendees wanted to see more technology presentation workshops from vendors.
- 45.2% of attendees learned or had questions answered by technology exhibitors and the other 44.3% that responded made contacts that will prove helpful to them in the future.
- 84% of respondents learned about us through our newsletter, followed next by our web site.
- 92.7% prefer email communications over snail mail.
- 86.8% would like to attend a CCFS webinar.
- 92.1% would like to attend a one-day local training/workshop.
