

The Center for Campus Fire Safety (CCFS) was formed to provide a central focal point for the complex issues surrounding campus fire safety.

The goal of the Center is to provide a place for those interested in campus fire safety to share ideas and learn from their peers.

Firewise Campus is a team of fire safety professionals working with The Center for Campus Fire Safety and Underwriters Laboratories to provide an instructor led program targeting those who are accountable for Fire Safety at colleges and universities.

Developed for the Campus Fire Safety Educator, Firewise Campus (FWC) will offer training programs with funds provided by a Department of Homeland Security Grant.

National Fire Prevention Week is October 7-13

SPREAD THE WORD ... PRACTICE YOUR ESCAPE PLAN!

Colleges and Universities across the nation are spreading the word ...

ALWAYS EVACUATE WHEN YOU HEAR A FIRE ALARM

AND

KNOW TWO WAYS OUT OF THE BUILDING

Malicious and malfunctioning false alarms can lead to a passive response to building evacuation on college and university campuses and have devastating results.

WATCH FOR THE THINGS THAT COULD SAVE YOUR LIFE

Make sure your fire extinguisher is full, and access is not blocked!
Listen to the audible signals and act as instructed!
Be Safe.
